

To: Air Operators flying to/from Curaçao

**Attention:** Pursuant to article 178, paragraph 2 under a of The Landsbesluit Toezicht Luchtvaart (Government Degree on Civil Aviation Safety Oversight) this Directive is being issued by the Head of the Curaçao Civil Aviation Authority.

**CURAÇAO CIVIL AVIATION AUTHORITY**  
**FACILITATION DIRECTIVE NO. CCAA/01/20**

**Willemstad, 12 March 2020**

**Subject: COVID-19**

To all concerned,

with reference to the **COVID-19** outbreak the CCAA requests you to adhere to the following points below.

1) **At Check in:** please ask all passengers whether they have traveled to a country with widespread transmission in the previous 14 days\* or whether they had been in contact with someone who has proven COVID-19.

If yes to either of these questions and they are ill (having fever with cough and/or difficulties breathing) they should **not be allowed on board!**

\* list of countries may change. to date, this includes: **China (including Hong Kong, Macau en Taiwan), Singapore, Iran, South Korea as well as the provinces Lombardy, Veneto, Emilia Romagna, Piemonte, Aosta-vallei, Trentino-South-Tirol, Friuli-Julisch-Venice and Liguria in Northern Italy**

2) **If the answer is no:** they are welcome to come to Curaçao but please inform them that they will be receiving a health alert upon arrival, in which they are being asked that if and when they should have symptoms as above, they should stay in their homes or

hotel room and immediately call the health department on the number provided in the health alert card. For the sake of helping to stop the spread, we kindly ask all travelers' full cooperation.

3) Should someone on-board during the flight appear overtly ill (coughing, problems breathing and fever)

- discreetly inform whether the person involved has traveled to a country with widespread transmission in the previous 14 days\* or whether he/she had been in contact with someone who has proven COVID-19.
- have the captain inform the ATC at Hato airport
- advise the person that health department personnel will escort him/her to a separate space to make a risk assessment and to explain the next steps.

After informing ATC they on their turn will inform CAP operations who will coordinate the guidance process of the passenger(s) to the quarantine area pending the health officials to take over.

Sincerely Yours,  
Curaçao Civil Aviation Authority

The seal is circular with the text "Curaçao Civil Aviation Authority" around the perimeter. In the center is a shield with a crown on top and a star at the bottom.

Mr. Hans de Jong  
Director General
